### LIMITED ENVIRONMENTAL REVIEW AVAILABILITY NOTICE

The Ohio EPA, through the Water Pollution Control Loan Fund (WPCLF) program, is considering funding a wastewater improvements project which is subject to environmental review requirements. The City of Struthers has proposed a project which consists of improvements to its Water Pollution Control Facility (WPCF). The purpose of the proposed project is to improve the operation of this facility by replacing five major pieces of equipment in the primary clarifiers, aeration blowers, macerators, primary sludge pumps, and slide gates at the entrance to the WPCF.

As Ohio EPA will issue a Limited Environmental Review (LER) document and an accompanying Final Finding of No Significant Impact (FNSI) on this project, this notice is to advise the public that it will have through February 24, 2017 in which to access the LER. This public information period will begin with the release of the document to the public at the city's offices, Ohio EPA's web site, and distribution of the document to interested parties.

With this release, the LER document may be viewed at either: the city's offices located at 6 Elm Street, Struthers, Ohio 44471, Struthers' website, or at Ohio EPA's Division of Environmental and Financial Assistance (DEFA) website at:

<http://www.epa.ohio.gov/defa/ofa.aspx>

Once there, please scroll down to the "Documents Available for Review and Comment" heading at the bottom of the linked page. Then, please click on the WPCLF Documents for Review and Comment heading to see a list of documents available for downloading. A copy of the referenced LER will be posted there.

On the other hand, if you would like to receive either an electronic copy via email, or a paper copy of the document via U.S. mail, please contact Kevin Hinkle of Ohio EPA at either: [kevin.hinkle@epa.ohio.gov](mailto:kevin.hinkle@epa.ohio.gov) or (614) 644-3712.
