Upcoming Project Information

CITY OF STRUTHERS PLANS BRIDGE REPLACEMENT ALONG WETMORE DRIVE

Project No. MAH-Wetmore Drive Bridge (PID No. 118677)

December 11, 2023 - The city of Struthers proposes a project to replace the existing bridge carrying Wetmore Drive over Yellow Creek within Yellow Creek Park in the city of Struthers, Mahoning County, Ohio. Additional improvements proposed by this project include the partial replacement of an existing stone culvert, approach roadway pavement resurfacing, new concrete walk/new curb installations, storm sewer drainage system improvements, and installation of a new decorative bridge railing.

The project is scheduled to begin construction in the spring of 2024. During construction, Wetmore Drive at the bridge site will be closed to traffic for a maximum of one hundred fifty (150) consecutive calendar days. The official detour for this project will utilize Center Street, Lowellville Road, S. Bridge Street and Poland Avenue. Construction updates will be posted within the project limits and on the city of Struthers webpage www.cityofstruthers.com, prior to the start of project construction. Access shall be maintained to all adjacent properties for the duration of the project.

To facilitate construction activities, approximately 769 square feet (0.018 acre) of Yellow Creek Park will be utilized by the city of Struthers to facilitate the project construction. All other access to the Yellow Creek Park will be maintained throughout construction activities including the adjacent Yellow Creek Trail and Hopewell Furnace Trail and parking area.

Yellow Creek Park is a recognized recreational property and is afforded protection from adverse impacts associated with federal-aid transportation projects. While the proposed project will not result in any adverse impacts to Yellow Creek Park or substantial impacts to environmental resources, the city of Struthers, is seeking any comments the public may have regarding the proposed project. Project-related issues the public may wish to comment on include, but are not limited to, the effect of the project on residents, the local economy, Yellow Creek Park, historic or cultural resources, etc. To ensure your comments are considered during project development, please submit them no later than January 10, 2024, via the contact information below.

Comments may be submitted via email, phone, or mailed to:
